OBJECTIVE

Motivated MERN Stack Developer with 1 year of practical experience in building responsive and efficient applications. Skilled in React.js and Node.js, with a proven ability to deliver high-quality, efficient solutions within dynamic environments. Committed to continuous learning, embracing new technologies, and collaborating effectively to drive innovation and team success. Ready to bring a strong technical foundation and a passion for excellence to contribute meaningfully to impactful projects.

TECHNICAL SKILLS

- **Front-End Development:** Creating dynamic and interactive user Interfaces using **React.js,Vite.js**
- **Back-End Development:** Experience in **Node.js and Express.js** for robust server-side development and RESTful API creation.
- **Database Management:** Hands-on experience in **MongoDB** for designing and managing NoSQL databases.
- **Styling:** Hands-on experience in styling websites using **CSS,Bootstrap** and **Tailwind CSS**.

WORK EXPERIENCE

1 YEARS EXPERIENCE

MERN STACK DEVELOPER

WHY Global Services, Chennai

- Developed and maintained scalable web applications using MERN stack (MongoDB, Express.js, React.js, Node.js) ensuring high performance and responsiveness.
- Created dynamic, interactive front-end interfaces with **React.js**, significantly enhancing user experience and engagement.
- Integrated third-party APIs and services to expand application features and improve functionality.
- Troubleshoot and debugged issues, providing timely resolutions to maintain application stability.
- Proactively pursued **continuous learning** to stay current with emerging technologies and best practices in the industry.

PROJECTS

Investment Website – Live Project

An interactive platform for managing, researching, and making informed financial investments, covering assets like stocks and bonds.

- Focused on front-end development, creating responsive and user-friendly interfaces to enhance user experience.
- Employed modern front-end practices to ensure the platform's usability and accessibility.

PSP Hospital – Individual Project

[Live Demo](#)

- Developed a hospital management website as a personal project to gain hands-on experience in full-stack development.
- Created a user interface that replicates key functionalities of hospital management platforms, enhancing knowledge of front-end and back-end integration.
- Strengthened skills in front-end design and UI/UX principles, focusing on responsiveness and usability.

First Ladder – Group Project

[Live Demo](#)

- Collaborated on a real-time enquiry platform aimed at facilitating communication for students, simulating a functional online educational support system.
- Contributed to the front-end development and user interaction components, enhancing the app's responsiveness and real-time features.
- Gained valuable experience in teamwork and project management within a collaborative development environment.

EDUCATION

BACHELOR OF ENGINEERING(2017-2021)

- Computer Science and Engineering (CSI Institute Of Technology, Thovalai)
